MBALE**

**DELIVERANCE CHURCH UGANDA
TWO MEDICAL PROJECTS FOR
EASTERN UGANDA**

**BUWASUNGUYI CLINIC
MANAFWA**

BACKGROUND

BUWASUNGUYI CLINIC was opened in rented premises in 1999. It moved to a purpose built clinic in Sisongofa village in 2005. As a model to take Christ centered health care to rural areas, it concentrates on mother and child care. Originally in Mbale district, it is now in Manafwa district.

J.O.Y HOSPICE is a private not-for-profit health care facility in Mbale town. It started in 2001 and offers general outpatient and inpatient services as well as specializing in holistic palliative care. A laboratory was added in 2004 and a medical store and administration office in 2008.

MOTTO

“WE TREAT: GOD HEALS”

MISSION

The hospice and clinic are committed to bringing holistic healing to the community by providing high quality, comprehensive, affordable and accessible services in both acute and chronic situations, delivered by compassionate and competent professional and support staff.

BIBLICAL FOUNDATION

- Christian healthcare has a long and honourable history. Like the Good Samaritan in LUKE 10 v 25-37 we should be compassionate and caring whatever the personal cost. Treatment is offered without discrimination as to race, tribe, religion, political affiliation, age or gender.
- We believe that God desires us to be healthy physically, mentally and spiritually and in our families and community.
- Our prayer for our patients echoes 3 JOHN v 2:

‘that you may enjoy good health and that all may go well with you, even as your soul is getting along well.’

J.O.Y. HOSPICE
