

## *When will your adventure in the Land of the Unexpected begin?*

Located off the northern tip of Australia and 5 – 6° below the equator, the beautiful tropical land of Papua New Guinea (PNG) contains over 850 language groups within its mountainous folds, each with their own culture and belief system. Many of these people groups remain unreached by the light of the Gospel.

How will they believe if they do not hear? How will they hear if no one preaches? And how will they hear or preach if they are too sick to continue?

### **Our Purpose:**

The New Tribes Mission-PNG team exists to glorify God by establishing churches in PNG that are equipped for maturity and multiplication. As part of NTM-PNG, the New Tribes Mission Medical & Dental Clinics exist to support NTM-PNG by providing assorted healthcare services. As time and resources

allow, the clinic will also provide healthcare services to other like-minded missions and our neighboring PNG communities.

Located at New Tribes Mission headquarters, the Medical and Dental Clinics play a critical role in the healthy functioning of our field.

*Is God directing your road  
to join our medical adventure?*

## Description

### Dental Practice

- General dental practice with 550 sq feet of space
- 2-chair operator with digital intra-oral radiography
- Clinical care includes: consultation, preventive maintenance, restorative dentistry, endodontics and oral surgery
- Prosthodontics, orthodontics and implantology services available periodically
- Participation in dental staff training and continuing education
- Outreach through mobile clinics in remote locations
- Public health education and community healthworker training opportunities

### Medical Practice

- Family medical out-patient practice with 2500 sq feet of space
- 3 exam rooms plus a 2-bed ER bay
- In-house pharmacy for patient supply
- Broad variety of cases and acuity levels
- In-house lab, digital x-ray, and ultrasound
- Physical Therapy on-site
- Mix of in-person and remote patient consultations
- Blend of expat and citizen patient population
- Opportunity for off-site clinics
- Medevac flight capability

Our staff actively contribute to the gospel-spreading efforts of NTM-PNG directly through personal interactions and relationships and indirectly through the medical support of their fellow missionaries and those to whom they minister.
