Love **students?**

Want to make a **difference?**

Why not go **Deep ER?**

We want to see Christian students *Connect, Grow, Speak and Serve* at medical school. For this to happen, local doctors who give their time to mentor, train and support leaders are crucial.

Leading Bible studies, delivering talks, going on a summer mission team and writing; being an **Associate Staffworker** will also be an opportunity to try new things, develop your gifts and serve others. You will make a real difference to the lives of students – what more valuable investment is there?

*Being a CMF Staffworker gave me great opportunities to explore how living to glorify Christ involves all of life. It was wonderful to help students figure out how to better study for and share Christ, and to grow alongside them in putting what we found into practice.*

Matt, former CMF Staffworker

# HEAD

Attend conferences, read widely, grasp apologetic and ethical issues; the knowledge you gain in this year will be invaluable as you combine medicine and faith. Preparing for working at home or overseas, you will have your mind informed and stretched.

# HEART

Develop a godly character with disciplines that will stay with you in a pressurised medical career. Meet with your mentor, prioritise prayer – grow your relationship with Jesus.

# HANDS

Try new things, develop your gifts and serve others. Lead Bible studies, deliver talks, go on a summer mission team and write. This year is about serving, growing and having the joy of seeing others grow as God works through you.

## Training

You will receive in-house training as part of the student team and will be expected to attend a team away day once a term. We have also teamed up with some external institutions\* to offer optional theological/mission training one day a week alongside your time with CMF. This might be doing short modules or longer modules over 1–2 years. For example, some will work 60% LTFT, a day with CMF and a day doing some theological training.

\*other modules can be considered

## Time commitments

- Minimum 2 years.
- Minimum 1 day a week.
- Based in a region supporting one to two medical schools.

## What does it cost?

Giving up time to serve students and juniors means a real cost to you as you work alongside us. We are keen for Associate Staffworkers to be funded by donations from their regions. This would mean raising £3000 a year to cover training, admin costs and travel expenses. This includes up to £500 toward a partner training programme if this option is taken. We will support you in partnering with churches and individuals, developing a team of people to support you in prayer and in some cases financially.

In partnership with

## Other opportunities

If this programme isn't right for you, check out our other volunteer roles:

### Deep **ER** Impact Volunteer

For those looking to volunteer in the holidays or other short period, helping the CMF student team with specific tasks.

### Deep **ER** Student Trainee

For intercalating students who can give approximately one day a week for a year.

### Deep **ER** Trainee

For F3 year or other year-out opportunities, giving a minimum of two days a week for a year.
